Clinical Psychology Assessment and Psychotherapy Services

Service Objectives and Scope: We provide clinical psychological assessment and psychotherapy to help parents understand their child's strengths and needs, support adjustment and self-efficacy across emotional, social, and academic domains, strengthen parent–child relationships, and facilitate referrals or applications for relevant services (e.g., preschool rehabilitation, exam accommodations).

Target Service User: Children, adolescents and adults suspected of having special educational needs, such as Developmental Delay, Autism Spectrum Disorder, Attention Deficit/Hyperactivity Disorder, giftedness, emotional and behavioural difficulties, and other conditions.

Examiner: Clinical assessments and professional reports will be completed by Clinical Psychologists (registered users of assessment tools/members of the Division of Clinical Psychology, Hong Kong Psychological Society).

Services Provided: The following assessments are conducted in English, with tests suitable for English-speaking individuals. For assessments conducted in Cantonese, please refer to the Chinese language Clinical Psychology service list.
